THE DAILY REBEL.

A REVIEW OF THE MONTHS PAST.

BY FRANCIS M. PAUL.

SUNDAY MORNING, NOV. 30, 1862.

REMOVAL.

The office of the DAILY REBEL has been removed to the back-rooms over the Bank of Tennessee.

FRANCIS M. PAUL.

The Abolition papers confess that Seward has his hands full, and that it will require all his sagacity, and they might have added his rascality, to steer safely through the complications with France and Spain.

A Washington correspondent of the New York Times says that France has demanded full and immediate indemnity for Butler's injuries to French citizens in New Orleans, and that the immense French armament now ready at Marseilles is the practical commentary on the diplomatic request. The writer takes it for granted that Seward will back down, as usual, on this.

Oct. 25th, 1862.—IN

MASONIC FEMALE INSTITUTE,

CLEVELAND, TENN.

The next session of this Institute will commence on Monday the 1st day of September next, under the direction and professorship of the Rev. Mr. Bradshaw, who has had charge of it for the last ten months.

The trustees in making this arrangement would like to extend their thanks to all citizens who have contributed to send them to this institution.

Mr. Bradshaw has had charge of the school for the last ten months during which he has rendered valuable service, as might any universal subscription to the Trustees' patronage and protection. Their efforts to secure their funds have been successful.

It is to be regretted that a former teacher has

two weeks, and the tuition to this School in the same

that was given when we last left, figures.

What can we do for a man who negotiates to educate his daughter? We have in the

classroom an excellent Instructor, a sufficient corps of Assistants, to distract all who may favor him with their patronage. Let me and all put our shoulder to the wheel and build up such a School as will be of considerable benefit to us and anxious to our town.

We have the building and we have the money, the people, we have the heart, let us help him to make good his plan.

The Trustees are thankful to the citizens for the patronage bestowed upon Mr. Bradshaw heretofore, and are glad to know that under his administration the institution has not lost any of the enthusiastic support it sustained in the better days of the Republic.

AMERICAN AFFAIRS.

The Paris correspondent of the London "Times" gives a rumor that France has made overtures to Russia in favor of the Great Powers making a move toward's mediation or recognition of the Confederate States.

The morning "Herald" leaves that the proposal of France for a joint intervention to recommend the suspension of hostilities has been laid before the governments of Russia and England and agreed to by the former.

The Council of the Liverpool Chamber of Commerce has debated the matter of the steamer "Tunica" and finally directed that a letter be sent to Earl Russell calling his attention to the destruction of ships containing British property by American cruisers under the command of the British Government as to the position of the owners of neutral property.

The London "Times" professes to see in the New York journals evidences of reaction in America and cherishes the hope that the worst is past, and that there will be a speedy return to reason and humanity.

The Army and Navy "Gazette" thinks it probable that Gen. McClellan may be trying to deceive the enemy by declaring himself unable to move, in order to make a rapid attack before the enemy is concentrated.

The Morning "Post" sees in the position of the Democratic party the first symptoms of deadly reaction, having at last made their appearance; and thinks the bold course adopted in denouncing the illegal proceeding of the government must be a source of satisfaction to every sincere well-wisher of the American people. It trusts that the Democratic successes are the harbinger of a final victory, which shall not sacrifice our own traitors to foreign power.
